

St. John Avenue Traffic Calming Project

From Elmwood Avenue to Belmont Boulevard

Project Manager: Ben McCabe, City of Kansas City, MO

Project Description

- This project will add traffic calming improvements along St. John Avenue from Elmwood Ave. to Belmont Blvd.
- The project goals are to slow traffic down on St. John Avenue and improve safety for all users.
- The project will be completed in two parts:
 - Part 1: a study to evaluate traffic, existing conditions, traffic calming options and estimated costs.
 - Part 2: final design services and construction based on desired improvements from the study and available funding.

Tentative Project Study Schedule*

September 2020 - Notice to proceed to HDR to begin study

November 2020- Data collection/existing conditions analysis complete

December 2020 - Public Meeting #1 (Virtual)

January 2021 - Draft set of recommendations and sketch

February 2021 - Public Meeting #2 (Virtual)

March 2021 - Final recommendations and report

*The full project design and actual construction of the traffic calming measures will occur after the study portion.

Funding Information

Project funding is provided by Fourth District Public Improvements Advisory Committee funds. For more info on PIAC, visit: www.kcmo.gov/piac
